Release Notes 9.82 – Acomba

Payroll

NEW FEATURE

Pay Slip (CCQ): New information can be added to paycheque formats:

- The RBQ number, if defined in the **Payroll Configuration** window, **CCQ** tab, **RBQ** field.
- The competency certificate number, if defined in the **Employee** file, **CCQ** tab, **Client Number (Certificate)** field.
- The employer's telephone number, if defined in the **Company Information** window, **Address** tab, **Telephone** field.

In the basic format, the RBQ number and certificate number have been added.

MyPaycheque.net

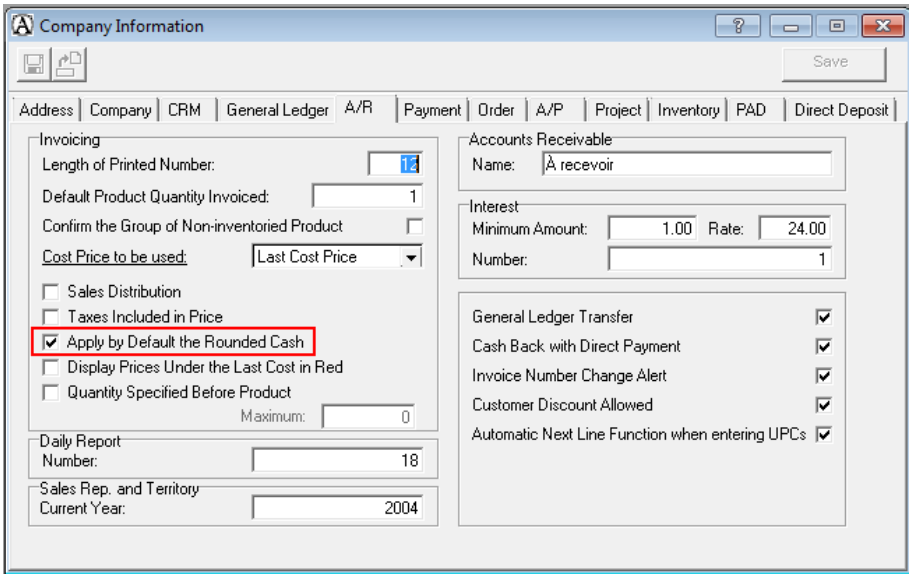

NEW FEATURE

The application now performs automatic checks in order to ensure the compliance and unique character of the information sent via MyPaycheque.net.

Invoicing and Point of Sale

NEW FEATURE

Withdrawal of the Penny: A new option in the **Company Information** window, **A/R** tab can now be used to apply by default the **Rounded Cash** in invoices.

For more details on the **Apply by Default the Rounded Cash** option, refer to the "Withdrawing the Penny" guide in the **Info** menu, **User's Guides**, **Sales and Purchase Management**.
